--	--	--	---

Document Purpose & Usage Guide

This document is a structured knowledge base designed for the QIDS integrated assessment agent. The agent uses this file to dynamically generate age-appropriate EQ assessment sheets, worksheets, and evaluation instruments based on user input. It covers all five EQ components under the Dynamic Emotional Competency (DEC) Framework, with two differentiated instruments per component — one for the 11–18 age group and one for the 19–32 age group.

Key Parameter	Detail
Total EQ Score (Raw)	50 marks
Conversion Factor	$\times 2.00 \rightarrow$ final 100-point scale
EQ Interpretation Range	35–50 = Strength 18–34 = Needs Attention 10–17 = Development Priority
Classic Questionnaire	25 marks — Likert-scale self-report items (adapted from DEC + Goleman EI model)
Innovative Assessment	25 marks — Activity-based, scenario, creative & observational tasks

Key Parameter	Detail
Marking Style	5-point Likert (1–5) for self-report; rubric-scored for activities
Agent Instruction	Generate age-specific version; select appropriate language, scenarios & activities

PART A

Classic Self-Report Questionnaire | 25 Marks | Likert Scale 1–5

Instructions: Score each statement 1 (Never/Not at all) → 5 (Always/Completely). There are no right or wrong answers. Be honest — this helps identify your genuine strengths and growth areas.

1	2	3	4	5
Never	Rarely	Sometimes	Often	Always

Component 1: Self-Awareness (SA)

Sub-parameters: Reflective Insight • Emotional Literacy • Self-Appraisal • Self-Concept Clarity • Internal Emotional Compass | 5 Questions | 5 Marks

► Age Group: 11–18 Years

#	Statement / Task	1	2	3	4	5
1	I notice right away when my emotions start to shift (e.g., going from calm to irritated).	☐	☐	☐	☐	☐
2	I can name exactly what I am feeling — not just 'good' or 'bad', but specific emotions like 'anxious', 'proud', or 'disappointed'.	☐	☐	☐	☐	☐
3	I have a realistic picture of my strengths and the areas where I need to grow.	☐	☐	☐	☐	☐
4	I know what I truly value in life — the things that matter most to me.	☐	☐	☐	☐	☐
5	My gut feelings often give me useful signals about what is right or wrong in a situation.	☐	☐	☐	☐	☐

Sub-total (SA — 11–18): _____ / 5

► Age Group: 19–32 Years

#	Statement / Task	1	2	3	4	5
1	I can identify and label my emotional states with precision, distinguishing, for example, between frustration and disappointment.	☐	☐	☐	☐	☐
2	I understand the recurring patterns in my emotional responses across different life contexts.	☐	☐	☐	☐	☐
3	I hold a realistic and balanced view of my capabilities without either overestimating or underrating myself.	☐	☐	☐	☐	☐
4	My personal values are clearly defined and consistently guide my choices and priorities.	☐	☐	☐	☐	☐
5	I trust and interpret my internal emotional compass (gut instinct) when navigating complex decisions.	☐	☐	☐	☐	☐

Sub-total (SA — 19–32): _____ / 5

Component 2: Emotion Regulation (ER)

Sub-parameters: Impulse Control • Emotional Flexibility • Resilience • Self-Soothing • Mood Management | 5 Questions | 5 Marks

► Age Group: 11–18 Years

#	Statement / Task	1	2	3	4	5
1	When I feel a strong urge to react angrily or impulsively, I can pause and choose how to respond.	☐	☐	☐	☐	☐
2	I can shift my emotional state when a situation changes — I do not stay stuck in one mood.	☐	☐	☐	☐	☐
3	After a setback (like failing a test or an argument), I bounce back and regain my balance fairly quickly.	☐	☐	☐	☐	☐

4	I have healthy strategies I use to calm myself down when I feel overwhelmed (e.g., breathing, music, walking).	☐	☐	☐	☐	☐
5	I can keep my mood from negatively affecting my work or relationships for extended periods.	☐	☐	☐	☐	☐

Sub-total (ER — 11–18): _____ / 5

► Age Group: 19–32 Years

#	Statement / Task	1	2	3	4	5
1	I consistently employ evidence-based self-regulation strategies (e.g., cognitive reappraisal) to manage disruptive emotions.	☐	☐	☐	☐	☐
2	I can adapt my emotional tone appropriately across professional, social, and personal contexts.	☐	☐	☐	☐	☐
3	I demonstrate emotional resilience by recovering from adversity without prolonged emotional disruption.	☐	☐	☐	☐	☐
4	I have a personal repertoire of effective self-soothing techniques and apply them proactively.	☐	☐	☐	☐	☐
5	I maintain sustained emotional balance even under prolonged high-stress conditions.	☐	☐	☐	☐	☐

Sub-total (ER — 19–32): _____ / 5

Component 3: Self-Motivation (SM)

Sub-parameters: Intrinsic Drive • Vision and Goal Orientation • Commitment to Growth • Self-Efficacy • Emotional Energy Management | 5 Questions | 5 Marks

► Age Group: 11–18 Years

#	Statement / Task	1	2	3	4	5
1	I work hard on things I care about even when no one is checking on me or rewarding me.	☐	☐	☐	☐	☐

2	I set clear goals for my future and take steps toward them regularly.	☐	☐	☐	☐	☐
3	When I make a mistake, I see it as a learning opportunity rather than a reason to give up.	☐	☐	☐	☐	☐
4	I genuinely believe I can improve through effort — my abilities are not fixed.	☐	☐	☐	☐	☐
5	I can channel excitement or nervous energy into productive action rather than letting it drain me.	☐	☐	☐	☐	☐

Sub-total (SM — 11–18): _____ / 5

► Age Group: 19–32 Years

#	Statement / Task	1	2	3	4	5
1	My motivation to pursue meaningful goals is sustained by internal values rather than external rewards.	☐	☐	☐	☐	☐
2	I set specific, long-term goals and design systematic action plans to achieve them.	☐	☐	☐	☐	☐
3	I actively seek feedback and development opportunities even in areas where I already perform well.	☐	☐	☐	☐	☐
4	I maintain a strong belief in my capacity to succeed across diverse and challenging situations.	☐	☐	☐	☐	☐
5	I manage my emotional energy strategically — knowing when to push, when to rest, and when to re-align.	☐	☐	☐	☐	☐

Sub-total (SM — 19–32): _____ / 5

Component 4: Empathy (E)

Sub-parameters: Perspective-Taking • Emotional Resonance • Compassion in Action • Non-Verbal Sensitivity • Cultural & Contextual Empathy | 5 Questions | 5 Marks

► Age Group: 11–18 Years

#	Statement / Task	1	2	3	4	5
1	I try to understand how a situation looks and feels from another person's point of view, even if it is very different from mine.	☐	☐	☐	☐	☐
2	When someone close to me is sad or upset, I genuinely feel moved — not just aware of it.	☐	☐	☐	☐	☐
3	If I see someone struggling, I do not just feel sorry for them — I take action to help.	☐	☐	☐	☐	☐
4	I pick up on small signals like tone of voice, body language, or facial expressions to understand how someone feels.	☐	☐	☐	☐	☐
5	I make an effort to understand and respect people from backgrounds, cultures, or experiences different from my own.	☐	☐	☐	☐	☐

Sub-total (E — 11–18): _____ / 5

► Age Group: 19–32 Years

#	Statement / Task	1	2	3	4	5
1	I intentionally engage in perspective-taking as a cognitive practice in professional and personal interactions.	☐	☐	☐	☐	☐
2	I experience genuine emotional resonance with others' emotional states while maintaining professional boundaries.	☐	☐	☐	☐	☐
3	I consistently translate compassionate awareness into concrete, constructive support for others.	☐	☐	☐	☐	☐
4	I am highly attuned to non-verbal and para-verbal cues and use this information to guide my responses.	☐	☐	☐	☐	☐
5	I adapt my empathic approach across cultural, generational, and contextual differences with sensitivity.	☐	☐	☐	☐	☐

Sub-total (E — 19–32): _____ / 5

Component 5: Interpersonal Skills (IS)

Sub-parameters: Authentic Communication • Conflict Navigation • Social Adaptability • Relationship Cultivation • Collaborative Engagement | 5 Questions | 5 Marks

► Age Group: 11–18 Years

#	Statement / Task	1	2	3	4	5
1	I can express my thoughts and feelings clearly and honestly without being rude or hurtful.	☐	☐	☐	☐	☐
2	When there is a disagreement, I look for solutions that work for everyone, not just for me.	☐	☐	☐	☐	☐
3	I can adjust the way I talk and behave depending on who I am with (e.g., teacher vs. friend).	☐	☐	☐	☐	☐
4	I invest time and care in building and maintaining my friendships and relationships.	☐	☐	☐	☐	☐
5	I contribute actively to group work — sharing ideas, listening to others, and helping the team succeed.	☐	☐	☐	☐	☐

Sub-total (IS — 11–18): _____ / 5

► Age Group: 19–32 Years

#	Statement / Task	1	2	3	4	5
1	I communicate authentically and assertively, expressing my perspective clearly while remaining receptive to others.	☐	☐	☐	☐	☐
2	I navigate interpersonal conflicts using structured, principled approaches that preserve relationships and advance shared goals.	☐	☐	☐	☐	☐
3	I fluidly adapt my communication style and interpersonal approach across diverse social and professional contexts.	☐	☐	☐	☐	☐

4	I deliberately invest in cultivating deep, reciprocal, and trustworthy professional and personal relationships.	☐	☐	☐	☐	☐
5	I facilitate collaborative environments where diverse contributions are integrated toward shared outcomes.	☐	☐	☐	☐	☐

Sub-total (IS — 19–32): _____ / 5

PART B

Innovative Activity-Based Assessment | 25 Marks | Rubric-Scored

This section uses scenario analysis, creative tasks, observational activities, and structured reflection to assess EQ behaviorally. Assessors score using the provided rubrics. Each activity maps to a specific EQ component.

B1: Emotion Mapping Canvas

Component: Self-Awareness (SA) | 5 Marks | Both Age Groups

TASK DESCRIPTION

Participants are presented with a set of 6 illustrated scenario cards (or written vignettes for older groups). Each card depicts a character in a complex emotional situation. The participant must:

- (a) Name the primary and secondary emotions the character is likely experiencing.

- (b) Identify the probable trigger for each emotion.
- (c) Explain how those emotions might influence the character's next behavior.
- (d) Reflect: 'When have you felt something similar? What did you do?'

AGE DIFFERENTIATION

11–18 Years	19–32 Years
Illustrated scenario cards with relatable school/home/peer contexts (e.g., being left out by friends, pressure before exams). Vocabulary scaffolded. Emotion word bank provided.	Written vignettes set in professional/adult contexts (e.g., receiving harsh feedback at work, navigating a difficult family conversation). Open vocabulary. No word bank.

RUBRIC

Criterion	Marks	Descriptor
Emotion Identification	2	Accurately names 2+ nuanced emotions (not just 'happy/sad'). 1 = basic labels only.
Trigger Recognition	1	Correctly identifies the emotional trigger from situational cues.
Behavioral Insight	1	Articulates a plausible, nuanced link between emotion and resulting behavior.
Personal Reflection Depth	1	Reflection is specific, honest, and shows genuine self-insight (not generic).
TOTAL	5	Score: _____ / 5

B2: The Pressure Cooker Simulation

Component: Emotion Regulation (ER) | 5 Marks | Both Age Groups

TASK DESCRIPTION

A timed, structured role-play scenario is administered individually or in small groups. The participant is placed in a simulated high-pressure situation and must navigate it emotionally. The assessor observes and scores live using the rubric below.

11–18 Years — Scenario	19–32 Years — Scenario
You have worked hard on a group project. On presentation day, a teammate says your section is wrong in front of the whole class and your teacher. You have 2 minutes to respond — verbally, to the class and teacher.	You have submitted a report to your manager. In a team meeting, a senior colleague publicly dismisses your analysis as 'basic' and recommends ignoring your findings. You have 2 minutes to respond — professionally, in the meeting.

DEBRIEF QUESTIONS (post-scenario, asked by assessor)

- 1. What emotions came up for you during that scenario?
- 2. What stopped you from reacting impulsively (if anything)?
- 3. What regulation strategy did you use, consciously or not?
- 4. How would you handle it differently next time?

RUBRIC (Assessor-scored, observed during simulation)

Criterion	Marks	Descriptor
Impulse Control	2	2 = Remains composed, no reactivity. 1 = Mild reactivity but recovers. 0 = Loses composure.
Emotional Flexibility	1	Adapts emotional tone as situation unfolds; does not fixate on one state.
Debrief Self-Awareness	1	Identifies own emotion and regulation strategy clearly and accurately in debrief.
Recovery Speed	1	Demonstrates visibly quick emotional rebalancing within the scenario.
TOTAL	5	Score: _____ / 5

B3: The Goal Combustion Board

Component: Self-Motivation (SM) | 5 Marks | Both Age Groups

TASK DESCRIPTION

Participants receive a 'Goal Combustion Board' worksheet. They must design a structured 90-day personal growth plan focused on one meaningful goal. The plan must include emotional drivers, anticipated obstacles, and self-accountability strategies.

Board Section	11–18 Years Prompt	19–32 Years Prompt
My Goal	What is one meaningful goal you want to achieve in the next 3 months? (School / Personal / Skill)	What is one significant professional or personal goal you are committed to achieving in 90 days?
Why It Matters	Why does this goal feel important to YOU — not to your parents or teacher, but YOU?	What personal values or long-term vision does this goal serve?

Board Section	11–18 Years Prompt	19–32 Years Prompt
Emotional Fuel	What emotion will drive you when things get hard? (e.g., 'I want to feel proud of myself')	Identify the intrinsic motivational forces that will sustain your effort through setbacks.
Obstacles & Responses	What 2 things might stop you? How will you push through each one?	Anticipate 2–3 implementation barriers. Design specific counter-strategies.
My Commitment Pledge	Write a sentence promising yourself you will start TODAY.	Draft a behaviorally specific commitment statement with a first action step.

RUBRIC

Criterion	Marks	Descriptor
Intrinsic Motivation Clarity	2	2 = Emotional fuel is deeply personal and specific. 1 = Somewhat generic. 0 = External only.
Obstacle Anticipation	1	Realistic obstacles named with concrete, personalised counter-strategies.
Goal Specificity	1	Goal is specific, measurable, and meaningful — not vague or imposed.
Commitment Language	1	Commitment pledge is behaviorally specific (first action named, not just aspirational).
TOTAL	5	Score: _____ / 5

B4: Walk in Their Shoes

Component: Empathy (E) | 5 Marks | Both Age Groups

TASK DESCRIPTION

Participants listen to a 2-minute audio narrative (or read a written account) of a person describing a difficult personal experience. They then complete a structured written response from TWO perspectives: the person in the story, and an outside observer. This dual-perspective exercise tests depth of empathic processing.

11–18 Years — Narrative Theme	19–32 Years — Narrative Theme
A student narrates: feeling excluded by a friend group during a school trip, pretending to be fine, and crying alone at night. Questions follow.	A professional narrates: being passed over for a promotion they deserved, watching a less qualified colleague get it, and doubting their own worth for the first time. Questions follow.

RESPONSE PROMPTS (written, 8–10 minutes)

- 1. Perspective A (As the person in the story): Describe exactly how this person might be feeling — physically, emotionally, and mentally. What might they be telling themselves?
- 2. Perspective B (As a compassionate observer): What does this person most need right now? What would you say or do if you were with them?
- 3. Cultural Lens (19–32 only): How might this experience differ for someone from a different cultural background? What assumptions might you be making?

RUBRIC

Criterion	Marks	Descriptor
Emotional Resonance Depth	2	2 = Multi-layered emotional description (physical + cognitive + affective). 1 = Surface-level. 0 = Factual only.
Compassion in Action Quality	1	Proposed support is specific, actionable, and genuinely responsive to stated need.
Non-Verbal / Contextual Reading	1	Identifies unspoken cues ('pretending to be fine') and reads between the lines.
Cultural/Contextual Sensitivity (19–32)	1	19–32: Demonstrates awareness of cultural assumptions. 11–18: Recognizes that others may feel differently than they would.
TOTAL	5	Score: _____ / 5

B5: The Bridge Builder

Component: Interpersonal Skills (IS) | 5 Marks | Both Age Groups

TASK DESCRIPTION

A structured social problem-solving task administered in pairs or triads. Participants are given a conflict scenario and must reach a resolution collaboratively within 8 minutes. The assessor observes the process (not just the outcome) and scores using the behavioral rubric below.

11–18 Years — Conflict Scenario	19–32 Years — Conflict Scenario
Two friends are collaborating on a creative school project. One wants to do something bold and unconventional; the other insists on a safe, traditional approach. They must present a unified plan in 8 minutes.	Two colleagues co-lead a project. One wants to take a risk and pitch an innovative strategy to the client; the other prefers a proven, conservative approach. They must align and deliver a joint recommendation in 8 minutes.

ASSESSOR OBSERVATION CHECKLIST (score live during the activity)

Observed Behavior	Marks	Scoring Guide
Authentic Communication	1	Expresses own view clearly and honestly without dominating or dismissing the other.
Conflict Navigation Style	2	2 = Seeks integrative win-win solution. 1 = Compromises but not creatively. 0 = Avoids or dominates.
Social Adaptability	1	Adjusts communication style in response to the other person's emotional state and needs.
Collaborative Engagement	1	Actively builds on the other's ideas; does not only advocate for their own position.
TOTAL	5	Score: _____ / 5

PART B — Score Summary (Innovative Assessment) Total: _____ / 25

Code	Activity	EQ Component Assessed	Score
B1	Emotion Mapping Canvas	Self-Awareness (SA)	/ 5

EQ Final Score Compilation & Interpretation Guide

Dynamic Emotional Competency (DEC) Framework | Raw Total: 50 pts → ×2.00 = 100 pts

Candidate Name:		Age / Group:	
-----------------	--	--------------	--

Section	Raw Score	Max
---------	-----------	-----

Part A — Classic Self-Report Questionnaire	/	25
Part B — Innovative Activity Assessment	/	25
EQ RAW TOTAL	/	50
EQ CONVERTED SCORE (×2.00)	/	100

INTERPRETATION GUIDE (Raw Score /50)

Score Range	Level	Meaning	Action
35–50	EQ Strength	Consistently demonstrates high emotional competence across most components.	Leverage as a mentor/leader; deepen advanced skills.
26–34	Developing EQ	Shows solid EQ in some areas with identifiable gaps in others.	Targeted development in 1–2 weaker components.
18–25	Attention Needed	Functional but inconsistent; emotionally reactive under pressure.	Structured EQ coaching recommended; focus on ER and SA.
10–17	Development Priority	Significant emotional intelligence gaps affecting relationships and performance.	Priority intervention across multiple components.

COMPONENT-LEVEL PROFILE (Agent: populate after scoring)

Component	Part A /5	Part B /5	Total /10	Level
SA — Self-Awareness				<i>Strength / Developing / Attention / Priority</i>
ER — Emotion Regulation				<i>Strength / Developing / Attention / Priority</i>
SM — Self-Motivation				<i>Strength / Developing / Attention / Priority</i>
E — Empathy				<i>Strength / Developing / Attention / Priority</i>
IS — Interpersonal Skills				<i>Strength / Developing / Attention / Priority</i>
